

MS 2692:2020

TESTING AND COMMISSIONING OF GRID – CONNECTED PHOTOVOLTAIC SYSTEM

26-27 JUNE | 4-5 DECEMBER | SHAH ALAM

PROGRAM OVERVIEW

This intensive training course provides guidance on the requirements, procedures, and tests for grid-connected photovoltaic (PV) systems as outlined in MS 2692:2020.

The proliferation of photovoltaic (PV) systems installed in the country has been growing at a steady pace. The use of high quality components and adoption of proper installations are extremely important to ensure safety and correct operation of the systems.

This is where MS 2692:2020 is essential as it details out requirements, tests procedures, and required documentation to increase client confidence with the installed system.

It is important that this MS is made known to as many users as possible as it entails safety to all, irrespective of categories.

COURSE CONTENTS

- Introduction and overview
- Pre-commissioning test procedures
- Testing and commissioning procedures
- Reliability run test procedures
- Report template

OBJECTIVES

- To introduce participants to the MS 2692:2020.
- To explain components and procedures.
- To describe the tests involved and documentation of results.

WHO SHOULD ATTEND?

Engineers, Chargeman; Wireman, Contractors; Service providers, Technicians; Installers, Certification bodies, Project managers, Qualified persons, Regulators & Government agencies, Academia; Researchers

FEE: RM 2,200
(exclusive of 6% SST)

MS 2692:2020

TESTING AND COMMISSIONING OF GRID – CONNECTED PHOTOVOLTAIC SYSTEM

26-27 JUNE | 4-5 DECEMBER | SHAH ALAM

OUR SPEAKERS

Dr. Sulaiman Shaari is a Member of the Board of Directors of UiTM Holdings Sdn. Bhd. since his appointment on 17th November 2021. He is also presently a member of the Sustainable Energy Development Authority (SEDA) Malaysia Technical Committee on safety. He is a certified Chief Global Trainer by the Global Green Energy Industry Council (GGEIC); an acknowledged Master Trainer for the SEDA Malaysia series of courses on photovoltaic (PV) systems; Master Trainer appointed by the Malaysian Photovoltaic Industry Association (MPIA); and is Train-the-Trainer accredited by the Human Resource Development Fund (HRDF) Malaysia. He is involved in PV system applications development and human capacity cultivation in both the government and industry in research, consultancy and expert advice in various forms, including local and international organisations for many years.

Dr. Ahmad Maliki Omar holds a Ph.D. in power electronics from University of Malaya, and M.Sc. in electrical engineering from Loughborough University, UK and B.Eng. (Hons.) in electrical engineering from University of Malaya. He is active in teaching, training, consultancy and research in solar photovoltaic (PV) power system, power electronics and dedicated controller. He has been the Malaysian representative at IEA-PVPS Task 11, Deputy Chairman of the PV Working Group for MS development and Honorary Professor at Faculty of Electrical Engineering, Universiti Teknologi MARA, Shah Alam. He is currently an Honorary member of the Malaysian Photovoltaic Industry Association and a Master Trainer and Examiner for the SEDA competency courses
